

What you have in your hands is a unique item from the Zoo di Simona: "IdeeDipinte-PaintedIdeas".

All our products are absolutely unique, made by a single hand and a single smiling mind that imagines, plans, studies and increases the value of artisanal handicraft as well as squeezing the imagination until a new personal, secret code is devised to communicate with you.

All animals and company are protected by copyright, by Creative Commons and common sense: you will not find an item like your in the whole world, you won't run, anywhere else, into its passion for conviviality, love and communication with ideas that move through colours and living lines.

Every example, so unique, deserves to be numbered and named by hand.

THIS is THE PROGRESSIVE NUMBER:
